

YOUR EV ROADMAP

As your end-to-end electromobility partner, we have the knowledge to guide you on your EV journey

POWER THINKERS AND DOERS

We think a lot about power. Where it's headed, how we can help manage the growing demand, while keeping it green.

As experts in electric vehicle charging systems, we offer an end-to-end solution and service that is flexible and configurable.

We help with the adoption of cleaner transport not only through advice, but clear actionable steps that see results.

From fleet reviews and infrastructure assessments, to business case development and project management. We can join you at any stage of your journey.

TALK TO US TO CREATE YOUR EV ROADMAP.

FLEET REVIEW

- Delivered by consulting partners
- Optimise fleet numbers
- Identify low emission alternatives
- Match operational requirements with vehicle charging times and range
- Identify optimal charging methods
- Total cost of ownership
- Emissions reductions and fuel savings

INFRASTRUCTURE PLANNING

- Electrical infrastructure review
- EV charger system design and layout
- Power management logic, optimising available power
- Standardised EV charging (for large organisations with multiple sites)
- Stakeholder engagement
- Staff survey design and analysis
- Employee home charging agreements
- Installation costs and budgets
- Bespoke cost recovery systems (e.g. reimbursing power costs)

IMPLEMENTATION PLAN

- Project planning
- Stakeholder (tenant/landlord) contractual arrangements
- Formal electrical drawings
- Health and safety for installation
- Equipment supply logistics
- Integration with any existing smart EV chargers

FUNDING APPLICATIONS

- Preparing EECA funding applications
- Drafting business cases
- Calculating return on investment and identifying emissions and fuel savings

INSTALLATION MANAGEMENT

- Project management
- Electrical compliance
- Drawings on completion (as-built)
- Networking and commissioning

MONITORING AND SERVICE

- Ongoing management
- User helpdesk and phone support
- Cost recovery (power reimbursements)
- Online charge point operator portal
- Custom monthly reports
- Fault diagnostics
